

Dear Parent/Guardian:

The flu shot is the best way to prevent the flu from spreading in our school. It is important that all children get vaccinated every year. Studies show that school children who receive flu shots have fewer illnesses, fewer absences from school, and lower rates of illness in their families during flu season.

The South Carolina Department of Health and Environmental Control (DHEC) is working with your school district to provide flu shots at your child's school this fall.

There will be no cost to you or your child for the flu shot at school. If applicable, payment from Medicaid will be made to DHEC on your behalf.

If you would like your child to get a flu shot at school:

1. Please fill out the online consent form found at <http://www.scdhec.gov/slvccconsent> and enter [14203027] as your validation code.
2. If you are not able to complete the online consent, you may use the attached paper consent. If you use the paper consent, complete the front of the form and return it to school within (5) days of receiving this letter.
3. Read the Vaccine Information Statement and the DHEC Privacy Notice (available: <http://www.scdhec.gov/Health/DiseasesandConditions/InfectiousDiseases/Flu/SchoolFluVaccineClinics/>). Your school's nurse also can provide you with paper copies.

If your child is under the age of 9, he or she may need to get a second flu shot for the best protection. You will be notified if your child will need a second flu shot. If your child does not receive the flu shot at school, please contact your child's healthcare provider or health department to get the flu shot.

Sincerely,

Teresa A. Foo, MD, MPH
Medical Consultant, Immunization Division
